

# Statement of Work

## Magic8; Gaming System Games Comparison 11/18/19

Development outline: Design, develop, and deploy one (1) Database project involving video gaming systems/games and one (1) Group Presentation. This project will take game review data per console from a website (such as IGN) putting it into a database and, querying the database to produce statistics, and using the statistics to determine which games got better reviews for a particular console. .

Execution: The project will follow an iterative design process, with final delivery set of the system December 6, 2018. The goal is to create a prototype of a video game database with statistics. A group project presentation will be delivered along with any other requested documentation. On December 6, 2018 the project will be complete.

### Timeline

- 11/15/18 Acceptance of terms and initiation of project
- 11/22/18 Nothing, because Thanksgiving
- 11/29/18 Code done, bug testing
- 12/06/18 Completion of project.
